My guess is that they are on the Martinsburg system. Alan can confirm.

Thanks. Do you know anything about the Air National Guard that's stationed there at the airport? Are they on their own water system, or on city water?

I understood that they were individual. Copied Alan if that is not correct.

Excellent! The table Michelle had exported only showed those where there were detects, therefore, only the three above .04. Thanks for the complete data! Now we know they were repeatedly sampled and some were below the reportable limits. Are they both individual wells feeding the treatment plants, or are there multiple sources?

Subject: Martinsburg UCMR3 PFOS

Karen, Meredith captured the UCMR3 data and I pulled out Martinsburg info. This seems to show more results than you were seeing. The numbers that you indicated to me seem to match. Does

this look correct? I talked to Alan at our Kearneysville Office and he said that both sources are considered GUDI.

Walt
